# Delivering Excellence In Signage

**Leading UK businesses and household names have been trusting Alpen Signs for over 30 years.**

We work in close partnership with our customers to design and develop the perfect signage product to meet their requirements – and ensure it gets delivered on time and within budget. With our responsive management and the delivery of top-quality products time after time, contact us about your next project and discover the Alpen Signs difference.

- We are a “one-stop-shop” from design to installation. With design, manufacturing and installation teams all in-house.
- We offer a full range of traditional and digital signage solutions. From a custom sign for a public house through to an advanced digital solution for a retail center - we can do it all.
- Providing signage to a wide range of sectors... commercial, industrial, leisure, hospitality, retail, education, healthcare, construction, and more.

# Why Choose Alpen Signs?

There's a simple reason that companies large and small choose Alpen Signs again and again. Trust. Whatever your signage needs, Alpen Signs has years of experience in delivering superb results.

## Find out more about our 5-step approach...

1. **Site Survey.** Every project, every customer and every set of requirements is different, our first job is to get to grips with your business and your requirements in detail...
2. **Signage Design.** If you get the process wrong, getting the right design can be a frustrating task. But not with Alpen.
3. **Sign Manufacturing.** We keep all our core sign manufacturing in-house, so we can guarantee superb quality results to the tightest production schedules.
4. **Sign Installation.** Whether fitting an individual sign or a multi-site rollout program, our team of in-house engineers are fully qualified to handle every eventuality and deliver a successful installation.
5. **Sign Maintenance.** Ensuring a long-lasting relationship. Once your sign is installed, don't worry, we're not going anywhere.

# Traditional Signage

# Fascias To Freestanding. Display To Digital

Alpen Signs have a fully integrated on-site 20,000 square foot manufacturing and office facility in Leicester, East Midlands.

Here we are able to produce signage and graphics across a broad range of sectors.

Our manufacturing technology and techniques mean we are able to offer a wide range of interior and exterior signage types.

## Design & production facilities include:

- Design & Graphic Studio
- Vinyl & Digital Printing
- Metal Fabrication
- CNC Routing
- Frame Building & Assembly

# Digital Signage

---

# Wall-Mounted Digital To Freestanding Digital Kiosks.

Alpen Signs was one of the first signage companies in the UK to embrace digital signage and the benefits it offers in a wide range of applications.

We now offer a complete range of indoor and outdoor digital signage solutions, from small digital advertising screens through to large freestanding digital display screens.

## **Typical applications include:**

- Promote Products or Services
- Display Important Information
- Entertain & Enhance
- Wayfinding

Whether your goals are advertising, POS video, internal communications or wayfinding, digital signage is an extremely effective method of engaging with your audience.

Unlike traditional signage, digital signage can also be updated at the touch of button.
